

What do developments in AI mean for the future of teaching?

A BVA Community Conversation

Led by Doug Ward (U. of Kansas) and Susan Bens (U. of Saskatchewan)

Thursday, March 23, 2023

2-3 p.m. Central (noon-1 PT, 1-2 MT, 3-4 ET)

Zoom Link: <https://bit.ly/3HzGfu4>

ChatGPT has stormed into the world of education, upending assignments and policies, and forcing educators to grapple with the rapidly developing capabilities of artificial intelligence. In the long term, though, ChatGPT and other AI tools will provide many new opportunities for improving teaching and learning and helping students succeed. Join us on March 23 and share your experiences and ideas with other instructors from BVA member institutions as we consider ways to adapt courses and curricula to artificial intelligence.
